

Instrumentation & Controls

DESIGN & MANUFACTURER OF FLOW METER
AMR WATER METERS AND SOFTWARE SOLUTION

At BR Instrumentation, we are dedicated to providing high-quality, reliable, and innovative instrumentation solutions for a wide range of industries. With a focus on delivering accurate measurement systems, we support various sectors including water management, oil & gas, chemical processing, and industrial applications. Our expert team ensures that every product and solution is tailored to meet your unique operational needs.

We Manufacture Types of Flow Meters

Electromagnetic Flow Meters

Application

- ETP
- STP
- Water Supply
- Water Supply Scheme
- Chemical & Pharmaceuticals
- Sugar Industries
- Food, Drugs & Petrochemical Company

Ultrasonic Flow Meters

Clamp On Sensor Portable / Handheld Type, Clamp On Sensor Wall Mounted Type, Insertion Type

Application

- Conductive Non Conductive Liquid
- Water & Waste Water, Oil & Gas, Chemical
- Water Distribution Plannts, large Pipeline
- For Industrial Online Calibration & Regular Inspecation Measurements

DWLR Piezometer

Ensure Precision & Reliability with Our Advanced Piezometers

Application

- STP Tank
- ETP Tank
- Borewell
- Normal Water Tank

After Sales Services

- Annual Maintenance Contracts For Smooth Functioning Of Instruments
- Onsite Flow Measurement & Flow Meter Calibration Services
- Supply Of Skilled Instrumentation Man Power
